Subject: Re: Received Brazilian STC for Dual High Back Seat

Unless its easy to do, I wouldn't bother. Its a small market. Make sure it goes in all future kits.

David

Subject: Fw: Received Brazilian STC for Dual High Back Seat

David,

Do we have to update paperwork in stock for the D350-689 with this STC - perhaps add to outside of box?

Kim

Subject: Received Brazilian STC for Dual High Back Seat

A little while ago, Martin requested Brazilian validation of SH02-33 for the Dual High Back Seat. Brazilian STC 2005S03-09 has just been received for this product. To give you an idea on timeline, the formal application from Transport Canada to Brazil was on 04.12.13. Dart applied to TC on 04.10.29. Therefore, from start to finish was about 5 months.

Kim Johnston (who was instrumental in getting this approval done) will be processing this approval shortly and can email a copy to you if you request it (I'm thinking of you Martin).

FYI, the cost to do this was about \$1500 US, so I'm guessing DHS might want to think carefully about which products they want to do this for or think about charging the customer on slower moving product.

Kim ... please update Bill's Product Development Schedule ... another one bites the dust.

Regards,
David
